November 9, 2021

Hon. Senator Marsha Blackburn  
357 Dirksen Senate Office Building  
Washington, DC 20510

Dear Senator Blackburn:

Throughout the pandemic airline employees worked transporting essential medical personnel and supplies across the country and around the world. Today, due to vaccine mandates, we are faced with an untenable decision: violate our sincerely held faith or medical advice *or* lose our employment.

After the 9/11 terrorist attacks, airline employees were hailed as heroes for getting back in the skies and returning glory to America's aviation industry. Twenty years later we again face tyranny. The Biden Administration's Executive Order mandating vaccinations emboldens our company's likely illegal reasonable accommodation of unpaid, indefinite leave. As we head into the busy holiday travel season, staff shortages plague the airline industry. Grounding healthy workers is not the way to restore America and will have a detrimental impact on our nation's travel system. Meanwhile, our nation, our liberties, our bodily integrity, and our rights to pray to the God of our choice are under attack.

**Airline Employees 4 Health Freedom** represents thousands of United Airlines employees who strongly support the *Keeping Our Covid-19 Heroes Employed Act*. Your bill will save essential airline workers from being fired due to President Biden's sweeping vaccine mandate. It is our pleasure to support you in your critical work.

Sincerely,

Captain Laura Cox  
Captain Sherry Walker  
Danielle Runyan
